Launch your summer to the moon and join Lehigh District as we take our Cub Scouts to space! Join us for three days of outdoor fun at lovely Camp Spirit; where your Scout will get to enjoy nature and learn all about space, while having lots of fun along the way. In addition to camp favorites like archery and the BB range, your Scout will enjoy plenty of activities that will take them into space. Whether they are building a Mars rover, launching rockets, colliding asteroids, or racing a spaceship, this will be a weekend they don't want to miss.

As a bonus, any Scout who completes their prerequisite will be able to earn their Out of this World Nova Award at the end of the weekend.

Prerequisites Adventures for the Out of this World Nova Award:

Wolves: Germs Alive!

Bears: Super Science

Webelos/AOL: Engineering, Game Design
